A NATIONAL TAFE DAY EVENT

The 2014 Federal Budget included a number of challenges for vulnerable Australians, but it is the removal of support and opportunities for young people that has most concerned the Australian community.

This forum brings together speakers from politics, trade unions, TAFE and community organisations to assess the impact of the budget on the young, and the flow on effects to the broader Australian economy and society.

Sponsored by

Australian Council of Trade Unions, Australian Education Union, Australian Manufacturing Workers Union and Adult Learning Australia.
